

# Harlequin Mirrors Pilkington Optimirror™ OW Protect 6mm

Harlequin mirrors are an important fixture of any dance studio. For the dancer the mirror provides immediate visual feedback allowing them to evaluate the height and shape of their movement and line of their bodies. Enabling dancers to see themselves as the audience will see them and is an important tool for technique training. Mirrors benefit the dance teacher offering greater visibility of their class and students from more angles and supports the teacher as an instructional tool.

For smaller studios mirrors can create an impression of a larger and lighter area adding greater depth to the dance space.

Harlequin Floors supplies and installs a bespoke range of the highest quality shatter-resistant mirrors and will ensure the mirrors are straight, level and true.

Available in two sizes and bespoke to order:

1220mm x 2000 mm

1220mm x 2440mm

The mirrors have a smooth polished edge and are the latest low iron Pilkington mirror providing a whiter, brighter appearance compared to a standard mirror. Harlequin mirrors conform to British and European Safety standards.
