

# Harlequin Marine™

**Harlequin Marine** is a hard-wearing, homogeneous vinyl dance floor which conforms to International Marine Organization (IMO) standards and fire ratings and is widely installed on cruise liners. It is fire resistant, with a slightly marbled surface.

**Installation:** Harlequin Marine is specified for permanent installation and is suitable for use on marine vessels including scene docks on cruise ships. It can be laid on any hard, smooth subfloor and is an excellent choice as a vinyl performance surface in conjunction with a Harlequin sprung floor.

**Usage:** Harlequin Marine is widely used as a stage surface on ships but is also suitable for multi-purpose use including concerts, television, theatre, operatic performances and various dance types including percussive (flamenco, Irish and tap).
