

Harlequin Vinyl Storage Cart

A Harlequin vinyl storage cart is the ideal storage solution when vinyl rolls need to be packed and stored away after use. Suitable for theatre technicians and touring companies as well as schools and dance classes held in community halls.

The Harlequin 6-roll vinyl storage cart will provide a welcome solution to the problem of moving or storing rolls of vinyl dance floor.

Harlequin storage carts are very fast to load and unload whilst being easy to manoeuvre with non-marking braked wheels.

Constructed from black scratch resistant, powder-coated steel, the cart is available in 1.5m wide and 2m wide to accommodate various roll widths.

Two handles are supplied with each cart to assist with loading and unloading and, when not in use, these locate on the end sections to help manoeuvre the cart itself.

A lockable tool box – ideal for keeping tools for cutting and fitting vinyl floors close to hand.

The heavy gauge poles which support the rolls of flooring have special end fittings to locate them securely on the cart and a centre support to prevent bowing of the rolls.

There are pallet saddles for forklift guidance as the whole unit is designed so it can be lifted.

The carts are fitted with four heavy-duty swivel castors; with brakes and non-marking polyamide wheels.

Simplifying the task of assembly from the supplied flat-pack, which previously required three people, the easy two-stage operation can now be managed by just one.

DIMENSIONS

	1.5m wide roll	2m wide roll
Overall length	1.84m	2.28m
